EXPERIENCE

- Vera** Jan 2025 – March 2025
 - Web Developer Intern**
 - E-commerce Optimization:** Revamped and optimized the website, boosting product visibility and engagement by 35%.
 - Product Listings:** Expanded catalog from 10+ to 50+ with improved navigation and UX.
 - Referral System:** Implemented referral code system, driving 20% growth in partnerships and sales.
 - Marketing Assets:** Created 30+ assets for Instagram and WhatsApp, raising engagement by 40%.
 - Performance:** Enhanced site load time by 25%, improving customer satisfaction.
- Unified Mentor** April 2024 – May 2024
 - Web Developer Intern**
 - Platform Development:** Developed an AI-driven web platform using Next.js and MongoDB for content discovery and sharing.
 - Authentication:** Implemented OAuth-based authentication and secure session handling.
 - API Development:** Built multiple REST APIs and optimized responses to improve performance and reliability.

PROJECTS

- HyrStack – AI Career Platform | Live Demo**
 - Full-Stack Development**
 - Application Development:** Developed a full-stack AI-powered career platform using Next.js, React.js, Node.js, and MongoDB, enabling structured interview preparation and resume building.
 - AI Integration:** Integrated OpenAI APIs to dynamically generate 500+ mock interview questions, personalized career insights, and AI-assisted resume and cover letter content.
 - Backend & Performance:** Designed REST APIs and server actions for onboarding and AI content generation, optimizing response time by 30% and improving scalability.
 - Authentication & Security:** Implemented secure authentication, protected routes, and role-based access control (RBAC) to ensure safe handling of user data for 100+ users.
 - User Experience & Automation:** Built interactive interview dashboards, performance analytics, markdown-based resume editor, automated PDF export, and scheduled workflows using Inngest.
- Connectr.ee – Personal Link Portfolio Platform | Live Demo**
 - Full-Stack Development**
 - Product Development:** Built a full-stack link-in-bio web application enabling users to create centralized personal landing pages to showcase 10+ social and external links.
 - Responsive UI:** Developed a mobile-first, optimized interface using React.js, Next.js, and Tailwind CSS, improving usability across devices and increasing engagement by 35%.
 - Dynamic Link Management:** Implemented real-time link creation, reordering, validation, and preview features, handling 500+ dynamic link updates efficiently.
 - Authentication & Sessions:** Integrated secure user authentication and protected routing to manage personalized dashboards for 50+ registered users.
 - Performance Optimization:** Optimized routing and link resolution logic, reducing broken links (404 errors) by 40% and improving load performance.
 - Deployment & CI/CD:** Deployed on Vercel with CI/CD pipelines and environment configurations to ensure reliable production builds and scalable hosting.

TECHNICAL SKILLS

- Programming Languages:** C++, Java, JavaScript, SQL
- Frontend:** React.js, Next.js, Redux, HTML5, CSS3, Tailwind CSS
- Backend:** Node.js, Express.js, REST APIs
- Databases:** MongoDB / SQL
- Tools & Platforms:** Git, GitHub, Vercel, Inngest, Postman
- Core CS:** Data Structures and Algorithms, OOP, Operating Systems

EDUCATION

- Delhi Technical Campus (GGSIPU)** Greater Noida, India
 - B.Tech in Computer Science and Engineering** Oct 2022 – June 2026

Relevant Coursework: Operating Systems, Data Structures, Analysis of Algorithms, Object-Oriented Programming

ACHIEVEMENTS

- Deloitte Australia Technology Job Simulation on Forage - August 2025
 - * Completed a job simulation involving development and coding * Wrote a proposal for creating a dashboard
- Led The ACE as one of the organisers
