EXPERIENCE

- **ONNOFF** Jan 2026 – June 2026
Frontend Developer Intern
 - * **Brand Experience:** Developed and optimized high-performance websites for brands, focusing on premium UI, animations, responsiveness, and user experience.
 - * **Frontend Development:** Built interactive web interfaces using React.js, Next.js, and modern frontend practices to deliver scalable digital experiences.
 - * **Motion & UI:** Implemented smooth animations, transitions, and engaging interactions to enhance storytelling-driven brand websites.
 - * **Performance Optimization:** Improved website performance, responsiveness, and loading efficiency through optimized components and code practices.
- **Vera** Jan 2025 – March 2025
Web Developer Intern
 - * **E-commerce Optimization:** Revamped and optimized the website, improving product visibility and user engagement by 35%.
 - * **Product Experience:** Expanded product catalog from 10+ to 50+ items with improved navigation and user experience.
 - * **Performance Improvements:** Enhanced website speed and usability, improving overall customer experience.

PROJECTS

- **HyrStack – AI Career Platform | Live Demo**
Full-Stack Development
 - * **Application Development:** Developed a full-stack AI-powered career platform using Next.js, React.js, Node.js, and MongoDB, enabling structured interview preparation and resume building.
 - * **AI Integration:** Integrated OpenAI APIs to dynamically generate 500+ mock interview questions, personalized career insights, and AI-assisted resume and cover letter content.
 - * **Backend & Performance:** Designed REST APIs and server actions for onboarding and AI content generation, optimizing response time by 30% and improving scalability.
 - * **Authentication & Security:** Implemented secure authentication, protected routes, and role-based access control (RBAC) to ensure safe handling of user data for 100+ users.
 - * **User Experience & Automation:** Built interactive interview dashboards, performance analytics, markdown-based resume editor, automated PDF export, and scheduled workflows using Inngest.
- **Connectr.ee – Personal Link Portfolio Platform | Live Demo**
Full-Stack Development
 - * **Product Development:** Built a full-stack link-in-bio web application enabling users to create centralized personal landing pages to showcase 10+ social and external links.
 - * **Responsive UI:** Developed a mobile-first interface using React.js, Next.js, and Tailwind CSS, improving usability across devices and increasing engagement by 35%.
 - * **Dynamic Link Management:** Implemented real-time link creation, reordering, validation, and preview features, efficiently handling 500+ dynamic link updates.
 - * **Authentication & Sessions:** Integrated secure user authentication and protected routing to manage personalized dashboards for 50+ registered users.
 - * **Performance Optimization:** Optimized routing and link resolution logic, reducing broken links by 40% and improving overall application performance.

TECHNICAL SKILLS

- * **Languages:** JavaScript, C++, Java, SQL
- * **Frontend:** React.js, Next.js, Redux, HTML5, CSS3, Tailwind CSS
- * **Backend & Database:** Node.js, Express.js, REST APIs, MongoDB
- * **Tools:** Git, GitHub, Postman, Vercel, Inngest
- * **CS Fundamentals:** Data Structures and Algorithms, OOP, Operating Systems

EDUCATION

- * **Delhi Technical Campus (GGSIPU)** Greater Noida, India
B.Tech in Computer Science and Engineering Oct 2022 – June 2026
Relevant Coursework: Operating Systems, Data Structures, Analysis of Algorithms, Object-Oriented Programming

ACHIEVEMENTS

- * Organized **The ACE** tech event with 300+ participants and 15+ industry speakers, managing technical operations and event execution.
- * Delivered 5+ freelance web projects for clients, building responsive and performance-focused websites using React.js, Next.js, and modern frontend technologies.
